

An Ordinary Womans Walk With God (Volume 1)

It took many years to realize that I had a story to tell. A story of Gods touch on my life and how he has watched over me. I cannot say when it began, but as I look back and think upon all the things that took place I now conclude that I have been in his care for a long time, and in making that statement I mean when I first became aware of the touch of God on my life. Believers sometime think God does not hear them in their prayers and daily tasks or God is too busy to handle all the mundane activities that we do each day, but God does not fail to answer when we seek him. Our problem is we have a programmed mind set of how we think God should answer our pleas, and when it does not happen as planned we do not think our prayers have been answered and we give up on God blaming him for our trials. When I have pleaded with the Lord in my deepest needs he has answered. As the result of prayer sometimes it was me that had to change or be fixed before he could finish the plan he had for my life. I have found when I am so sure I am right that is when I am so wrong. Knowing this I stand in awe before our Lord Jesus Christ and marvel at how he seeks to make things right for us when we choose to follow him. You may think a lot of my stories are my imagination or really not very earth shattering to be thought of as God speaking to me, but it supplied the strength I needed at times in my life when I needed God the most. There is no doubt in my mind that it was God who masterminded protection for my life. So, Im asking you as you read this to open you eyes to the small and large things that happen in your life. Things that may appear unusual or unexplainable. I guarantee you God is in the action even though you have not opened your eyes to that fact. He is there and he answered your prayer even if there was no action to verify that he did. Once you begin to look into your life in this manner I know you will be

pleasantly surprized to find God.
