

## Orson Buggys Lessons for Losers (Volume 1)

From the best-selling author of *How to Slay a Dragon*: Twelve-year-old Orson Buggy might have suffered every horse-and-buggy insult known to man, but that would require people talking to him. Over the years he has acquired only a tiny group of friends. His uber-loser friends. The worst of the worst. Now he has the chance to start over at a new school, without any of his loser friends holding him back. If he can just keep people from finding out his name, he might have a shot at being normal for the first time in his life. Why, then, within five minutes do people start thinking he's some sort of jerk? And why, by the end of the day, is everyone convinced Orson is the biggest deranged psycho-killer to ever roam the halls of Hugh Morris Middle School? Orson is about to learn that help comes from where he least expects it, and when it comes to friends, new isn't necessarily better. *Orson Buggys Lessons for Losers* is a laugh-out-loud glimpse into one boy's struggle with the absurdity of starting seventh grade.
