

## Kinns The Medical Assistant - Elsevier eBook on VitalSource (Retail Access Card): An Applied Learning Approach, 12e

More chapters on assisting with medical specialties than any other Medical Assisting text prepare you to assist in specialty exams and make you better qualified to work in specialty fields like cardiology, dermatology, ophthalmology, gynecology, and neurology. Step-by-step, illustrated procedures make it easier to learn and understand medical assisting skills, and include rationales for each step. Threaded case scenarios help you develop critical thinking skills and apply concepts to realistic administrative and clinical situations. Patient education and legal and ethical issues are described in relation to the Medical Assistants job. A Portfolio Builder on the Evolve website helps you demonstrate proficiency to potential employers. Detailed learning objectives and vocabulary with definitions in each chapter help you study more effectively, with connections icons linking concepts in the text to exercises in the study guide and on the Evolve companion website. Study Guide includes a variety of exercises to test your knowledge and critical thinking skills, case scenarios from the book, and a Procedure Checklists Manual. Sold separately. NEW! Charting examples within the procedures are highlighted for easier learning. UPDATED coverage of the Electronic Health Record ensures that you are familiar with the technology you'll use on the job. UPDATED content on alternative therapies and treatment includes the latest herbal remedies such as red rice yeast for lowering cholesterol, St. Johns Wort for depression, and probiotic bacteria for GI maladies.
