

## The Necromancer

Salem, Massachusetts, 1692: The witch hunts begin. Neighbors are turning on one another. A smallpox epidemic has broken out. People are dying. One man is responsible, a warlock of great power The Necromancer and he has just seduced one of Salem's purest women into a perdition that will haunt her the rest of her life. Using actual historical events as the backdrop for the fictional story of Reverend Ambrose Blayne and Susanna Harrington, it is a novel of passion, horror, love, and the cruelty which man is capable of. It is a deeply disturbing, often graphic depiction of those brutal and uncertain times. The novel, while primarily set in Salem, sprawls across Europe from witches being burned at the stake in Scotland to spiritual awakenings in the Roman Amphitheater and depraved Witches Sabbats in the Harz Mountains of Germany. The series of events culminates in the warlocks summoning of a Lovecraftian demon which threatens to unknit the fabric of the world and an ending that will chill the readers blood.
