

Parlor Talk

Part personal experience, part mystery, Parlor Talk is an original tale of struggle, heartbreak, survival, and healing as a group of vastly different women find transformation as they share their former lives. The backdrop for these scenarios is the shop of the neighborhood stylist. Parlor Talk delves into friendships and families, exposing the trouble hidden behind closed doors. As these bizarre relationships between the women unfold and unravel, so do the characters, Lovey Jacobs, Rushula Boyette and Lady Samuels, forcing powerful acts of remembering and reckoning. This is a topsy-turvy tale of unforgettable characters, choices, psychological illness, and restoration. Through it all, we come to identify with the characters on various levels that grow ever more surprising, and sometimes shocking. The characters reveal to us not only that the past transforms the present, but how a single act can spark heartbreak, loneliness, obsession and finally, the opportunity to put these forces to work toward healing and a prosperous life.
