

Asian Face, Facial Plastic Surgery Clinics Of North America (vol.15,#3)

The number of procedures for cosmetic surgery available for women and men of Asian descent continues to increase. Every facial plastic surgeon strives to achieve optimal balance and harmony of the facial features of their patients and, in this issue, special considerations involved with cosmetic and reconstructive surgery of the Asian face are presented by the leaders in the field. Contents include: Z-epicanthopexy; Double eyelid operation; Orbicularis oculi-Levator aponeurosis fixation technique; Asian rhinoplasty; Analysis of Asian Skin; Pigmented Lesions in Asians; Pre-operative Considerations; Personal Reflections on the Asian Cosmetic Patient; Double eyelid fold modified suture technique; Anatomy of the Asian eyelids; Aging Face in the Asian Patient; Facial skin rejuvenation in the Asian Patient; Fillers in Asian Patients; Asian Blepharoplasty.
